PROFILE
Aspiring Software Developer currently pursuing B.Tech in Computer Science & Engineering. Eager to apply foundational programming and web development skills to real-world problems. Strong understanding of HTML, CSS, JavaScript, Python, and Java with a focus on clean and maintainable code. Known for quick learning, adaptability, and a sincere passion for software development.

PROJECTS

BillMate - Household Expense Splitter
Built a responsive web app using HTML, CSS, and JavaScript to split and manage shared expenses. Implemented real-time calculations, input validation, and dynamic DOM updates for a smooth user experience.

Amazon Clone – Static Web Page
Developed a responsive clone of the Amazon homepage using HTML and CSS to replicate real-world UI layout. Used Flexbox and Grid for layout design, focusing on responsiveness, visual accuracy, and clean code structure.
